OILSEEDS NEWS

VIRTUAL SOYBEAN CROP

BREAKING THROUGH: Late-sown soybeans emerging in a NSW DPI sowing-time trial. The progress of the trial can be viewed on the AOF's Virtual Soybean website.

Sowing is nearly complete for the Australian soybean crop, and fine examples of soybeans can now be viewed online at the Virtual Soybean Crop on the Australian Oilseeds Federation's website.

Oilseeds Industry Development Officer, Felicity Pritchard said that weekly or fortnightly photos of irrigated soybean crops at Leeton, in the Riverina, Echuca and two rainfed crops near Mackay and in the

Burdekin region in Queensland will be posted on the site for all in the industry to view the progress of this season's crops.

The photos will be provided by agronomists Dale Boyd, Victorian Department of Primary Industries, Luke Gaynor New South Wales Department of Primary

Industries, John Hughes of the Queensland Department of Primary Industries and Fisheries and Burdekin grower Andrew Lashmar.
